

The art of Cinema Seating

Endless seating configurations ...

Siena

Our contemporary design recliner fits any home cinema. The design features contrast stitching, comfort quality foam and choice of fabric or leather upholstery (or customer supplied material). Featuring a steel mechanism with the choice of a manual, single motor or dual motor recline system. Stainless steel control buttons can be found in the armrest. As an option, we offer control of mechanism using contact closure or IR. Drink holders or trays are available in black or any color requested. Options such as tactile transducers give our seats a extra 4D experience.

MODENA sofa

Our modern sofa-style chair, featuring a zero wall mechanism. Available in fixed, manual, and motorized steel incline mechanism. Standard it comes with a manual articulating headrest. Optional the headrest can be motorised allowing you to control the footrest, backrest and headrest using hidden control buttons. Choose between two seating widths to create endless configurations, from rows to L-shaped style setups. As shown on image below, it also comes as a day bed with either manual or motorised headrest.

Elba

Our classic design recliner featuring a steel mechanism with the choice of manual, 1 motor or 2 motor recline system. Choose between our collection of fabrics or 2 leather grades upholstery (or customer supplied material). Uniquely the control buttons are hidden underneath the upholstery. As an option, we offer control of mechanism using contact closure. Drink holders or trays are available in black or any color requested.

Verona club chair

Our Verona club chair is a fixed single seat with an optional removable headrest. This compact comfortable chair is perfect for extra seating when space is limited, or for high end listening rooms. A matching ottoman allows you to relax en enjoy your favorite music.

About us:

Cineca was founded to provide exclusive high quality furniture solutions for the Custom Installation industry. Today we are offering beautiful Cinema seating, furniture and effective acoustic solutions throughout the World.

High quality assured production in Europe makes us offer excellent valued products with an attention to detail.

Superb European contemporary design makes the Cineca seating models – Siena, Modena and Elba unique within our industry. High quality standards are applied for all production facilities, creating superior products to be enjoyed for years to come. Each Cineca seating model encompasses a unique design, together with fine grade high quality materials, notably European premium leathers available in 22 colours with contrast stitching, a large range of quality fabrics (or your customers can choose their own custom fabric of choice) and all using quality foams. German motors, steel mechanisms all guarantee stability and dependability leading to exquisite comfort.

Operation of the mechanism is available in manual, single or dual motorized versions. Cineca's dual motorized system allows for independent control of the back and footrest. All of our private cinema seats are built to accommodate modular seating layouts. Client's can create endless seating layouts by combing armrests (curved / straight / wide) and seating parts (single, double, triple etc.,)
